2014/09/18 (R) PC Board Presentation Photos

Description

Photos have been posted from the September 14, 2014 SLAARC meeting presentation by member Gary Morgan, WA8TJA, on the process and technology he uses to design and manufacture his own printed circuit boards. Bob, WD8AQX, also brought a project he built some years ago and discussed the methods he used to make it. Look in the Photo Gallery under Meeting Programs for the photos and resource documents.
