

President's March Newsletter and Meeting Announcement

Description

Spring is Coming

We keep having tastes of Spring. March has come in like a Lion, which means it should go out like a Lamb. I know that the February and March weather took out my HF antennas so March will mean some antenna work.

Spring also means Siren testing for Oakland county. We had our first of the year on Saturday, March 3rd. Those interested my contact Mike W8XH for more information or to sign-up for the next Siren test event.

February Presentation – Allstar Node Demonstration and Discussion

We will re-schedule the intended February meeting presentation to later in the year. Thanks to Chris N8CAL for preparing to present!
