

Belle Isle POTA Recap – August 25, 2024

Description

default watermark

With almost 20 attendees to the Detroit, Michigan Belle Isle POTA event, the SLAARC club put on an exciting afternoon of HF Radio play and Parks on the Air.

A big thank you to all who attended the first Belle Isle POTA event. We had operators working on 40m, 20m, 10m and 15m – in both Digital Modes (FT8) as well as Phone (Ssb). Combined, we made greater than 150 contacts to hungry-hunters to successfully activate one of Michigan's more unique State

Parks, Belle Isle (US-1487). For activators interested in adding this park to their collection of activated entities, we recommend you head to the less busy north end of the island, near the the Ralph Wilson Gateway Trail. There you will find some pergolas offering shade, and a place to setup your gear and get on the air!

For more information, and pictures from this years event- Please consider jumping into our [SLAARC Discord](#) or follow us on [Facebook!](#)
